# Introduction Dr. R. K. Abrahams

### Chemical and Process Engineering

#### BSc & PhD Chem Eng.

Microkinetic Modelling

## Software and Data Engineering

#### Co-founded a start-up

 Development of frontend, back-end and product life cycle

#### **Process Engineer**

☐ Coal gasification plant

#### **Tech Lead**

 Managed Engineering team responsible for customer security

# **Energy and Resource Consultant**

☐ Several projects in Oil & Gas, Mining and Utilities

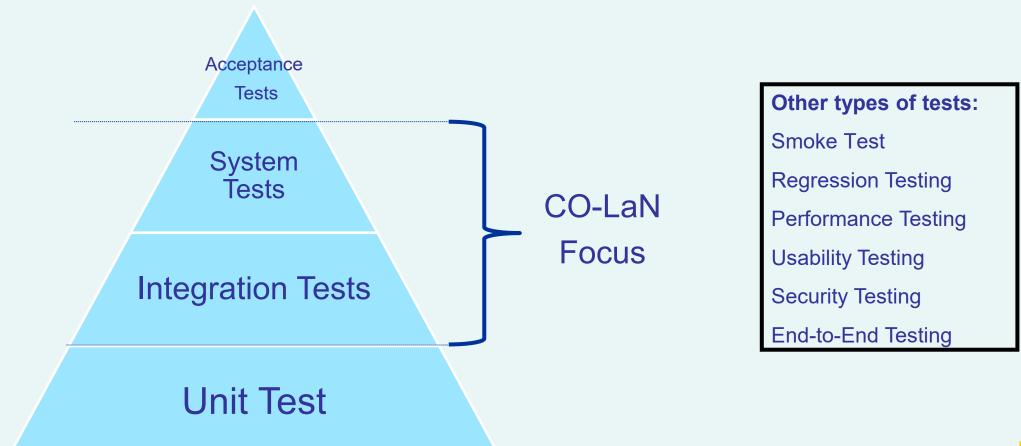

#### **Senior Lecturer at UCT**

Focusing on data driven engineering solutions

Various levels of testing can ensure the interoperability

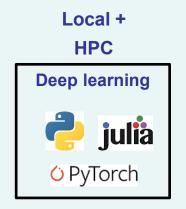

Containerized microservice architecture provides flexibility and can adjust resource requirements
